Summary

Motivated Software Engineering student currently pursuing a Higher National Diploma (HND) in Computing. Passionate about software development and problem-solving, with hands-on experience gained through academic and personal projects. Familiar with modern web technologies, databases, and software development practices. Seeking an internship opportunity to apply technical knowledge, gain industry experience, and contribute to the development of innovative software solutions.

Education

ESOFT Metro Campus

Reading

Higher National Diploma (HND) in Computing

G.C.E Advanced Level (A/L)

May 2018 - Aug 2020

Technical Skills

Software Development:

Object-Oriented Programming (OOP), Problem Solving, Software Development Fundamentals

Programming Languages: Python, JavaScript, TypeScript, PHP, C#

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, NestJs, PHP

Databases: MySQL, MongoDB, SQL Server

Development Tools: Visual Studio Code, Git, Git Hub, Jira, Postman

Projects

Personal Portfolio [[GitHub](#)]

Dec 2025

- Designed and developed a personal portfolio website to showcase academic projects, technical skills, and professional accomplishments.
- Built a highly responsive and interactive user interface ensuring seamless cross-device navigation and modern UI aesthetics.
- Optimized layout styling and component structure to deliver a fast-loading and user-centric web experience.
- **Technologies:** TypeScript, JavaScript, HTML, CSS

Clothing Website [[GitHub](#)]

Nov 2025

- Built a fully responsive e-commerce website for a clothing brand with both user and admin functionalities.
- Developed features including product catalog browsing, user registration and login, secure authentication, shopping cart management, add-to-cart functionality, and order placement. • **Tools Used:** PHP, MySQL, HTML, CSS

Food Hub Management System [[GitHub](#)]

July 2025

- Developed a comprehensive management system for a food delivery business to efficiently track orders, inventory, and customer information.
- Key features included order processing, inventory management, customer database, POS functionalities, and staff management.
- **Technical Stack:** SQL Server with full CRUD operations.
- **Tools Used:** C# (Windows Forms), SQL Server

Fitness Management System [[GitHub](#)]

Nov 2025

- Built a responsive fitness management web application with dedicated admin and user modules.
- Developed full CRUD functionality to manage bookings, members, trainers, and workouts using MySQL database integration.
- Designed and implemented key interfaces including login authentication, dashboards, profile pages, and booking management system.
- **Tools Used:** HTML, CSS, JavaScript, MySQL
